## EDUCATION

---

### University of Lagos

Bachelor of Science in Microbiology

Oct. 2023 – Present

## EXPERIENCE

---

### Fullstack Web Developer Intern

Jul. 2023 – Sep. 2023

Internship Program - TechStudio Academy

- Collaborated with designers and developers to build a fullstack web application as part of a team project
- Contributed to both frontend and backend features throughout the development lifecycle
- Participated in project planning, implementation, testing, and final project defense
- Awarded **Most Outstanding Intern (Fullstack Web Development)** for performance and contribution

### Frontend Developer (Contract)

Dec. 2023

MarketBuddy

- Revamped the UI/UX of the company website to improve usability and visual consistency
- Worked with an existing HTML and Bootstrap codebase to modernize layouts and components
- Implemented design updates based on stakeholder feedback

### Fullstack Developer (Contract)

Mar. 2025

SayFoods

- Designed and developed a fullstack marketplace platform for buying and selling items from the ground up
- Implemented core application features including product listings, user flows, and transactional functionality
- Handled both frontend and backend development from initial setup to a production-ready solution

### Frontend Developer

Mar. 2025 – May 2025

Product Room

- Worked within a product team to develop two different web products from concept to advanced development stages
- Collaborated closely with designers and developers in a fast-paced product environment
- Balanced academic responsibilities alongside professional development work
- Strengthened skills in time management, problem-solving, and real-world product development

### Frontend Developer (Contract)

Jul. 2025

Election Platform Project

- Built the frontend for an election website used in a local government chairman and councillor election
- Developed responsive, accessible, and user-friendly interfaces suitable for public-facing use
- Worked closely with the client to meet functional requirements under strict timelines

### Frontend Developer

Nov. 2025

Cliqss

- Designed and developed the frontend of the application from scratch
- Translated product requirements into functional, responsive user interfaces
- Built reusable components and structured the project for scalability and maintainability

### Mobile App Developer (Self-Directed)

May 2025 – Present

Independent Learning

- Self-learning mobile application development through hands-on projects and structured practice
- Building functional mobile applications with a focus on performance, usability, and clean architecture
- Preparing production-ready applications for future release

## PROJECTS

---

### **Nairaland Clone** (Live Site) | *React, Axios, Node.js, Express, MongoDB, Chakra UI*

- Designed and developed a fullstack discussion platform inspired by Nairaland with enhanced UI/UX and improved content flow
- Built both frontend and backend from scratch, handling application architecture and data flow independently
- Implemented Google authentication for secure user sign-in
- Integrated modern state management and API communication patterns

### **Sayfoods** (Live Site) | *TypeScript, React, Redux, Node.js, Express, MongoDB, Chakra UI*

- Developed a fullstack e-commerce platform for buying and selling food items
- Implemented secure Paystack payment integration for online transactions
- Built scalable frontend and backend systems using TypeScript
- Handled application logic, state management, and API integrations independently

### **Cliqss** (Live Site) | *React, Redux Toolkit Query, Paystack, Chakra UI*

- Built the frontend application from scratch based on product requirements
- Implemented Google authentication and Paystack payment integration
- Developed reusable, scalable UI components using modern React patterns
- Delivered a production-ready interface aligned with business requirements

### **Backyard (In Progress)** (Live Site) | *React, Redux Toolkit Query, Chakra UI*

- Developing the frontend for an upcoming automobile marketplace platform
- Building responsive pages to support future dealer and buyer interactions
- Structuring the application to support future feature expansion

## TECHNICAL SKILLS

---

**Languages:** JavaScript, TypeScript, HTML, CSS

**Frontend:** React, Redux Toolkit, Redux Toolkit Query, Chakra UI, Tailwind CSS, Bootstrap, React Hook Form, Formik, React Native, Expo

**Backend:** Node.js, Express.js, MongoDB

**State Management:** Redux, Redux Toolkit, RTK Query, Context API

**Tools & Platforms:** Git, GitHub, Vercel, Netlify, Render, Postman
